

Pretreatment, Pollution Prevention, and Storm Water Committee

# Protecting California's Water

**Don't Hazard a Guess...  
Get the Facts!**

**31st Annual Conference & Exhibition  
February 23 - 25, 2004**

[www.cwea.org](http://www.cwea.org)

*P3S is formerly known as the Industrial & Hazardous Waste Committee*

**Hilton Burbank Airport and Convention Center • 2500 Hollywood Way, Burbank, CA 91505**

## **Conference Committee**

### **CHAIR**

Larry Whitney, City of Simi Valley

### **ARRANGEMENTS & FINANCE**

Bill Garrett, LACSD

Joe Lucia

### **REGISTRATION & MAILINGS & CEPS**

Jeff Carter, United Water

Paul Martyn, LACSD

### **EXHIBITS**

Pei-Chin Low, MWH Americas Inc.

Rich von Langen, CGvL Engineers

### **BINDERS**

Mahin Talebi, OCSD

Laurie von Winckelmann, OCSD

Rosalie Skefich, Custom Environmental

### **BROCHURE**

Gary Welling, City of Santa Monica

Rosalie Skefich, Custom Environmental

### **SIGNS**

Kenneth Hanks, Doug Rands, and

Carlos Guerra, LACSD

### **INDUSTRIAL PLANT**

### **OF THE YEAR AWARDS**

Mike Zedek, OCSD

Tim Potter, Central Contra

Costa Sanitary District

## **Program Committee**

### **PROGRAM CHAIR**

Ann Heil, LACSD

### **SESSION CHAIRS**

Phil Bobel, City of Palo Alto

Jeff Carter, United Water

Dion Castro, City of Riverside

Phillip Lo, LACSD

Paul Martyn, LACSD

Rich von Langen, CGvL Engineers

Gary Welling, City of Santa Monica

### **ENVIRONMENTAL COMPLIANCE**

### **INSPECTOR TRAINING**

Jon Boyd & Dave Sanchez, LACSD

### **INDUSTRIAL PRETREATMENT**

### **OPERATOR TRAINING**

Rindy Smith-Sanders, Chemetall Oakite

John Shaffer, Environmental

Engineering & Contracting, Inc.

### **EPA PRETREATMENT TRAINING**

Keith Silva, US EPA Region 9

### **STORMWATER TRAINING**

Mack Walker, Larry Walker Associates

Jeremy Johnstone, US EPA Region 9

### **CWEA SUPPORT**

Julie Taylor & Brian Murray

# **Message from the Chair**

Dear Friends,

To stay abreast of our changing world, this year the CWEA Industrial & Hazardous Waste Committee has changed its name to the Pretreatment, Pollution Prevention, and Stormwater (P3S) Committee. The purpose of the name change was to better focus on priority issues for environmental personnel in California. We have also changed the name of our annual conference, which is now called the CWEA Pretreatment, Pollution Prevention, and Stormwater Conference. We invite all people working in the fields of pretreatment, pollution prevention, and stormwater to join us at our newly named conference, including personnel from public agencies, consulting firms, and industry.

Although the name of our conference has changed, the standard of excellence you have come to expect from the conference has not changed. The Opening General Session on Monday will feature updates on important issues from the LARWQCB, the SWRCB, and the US EPA. It will also include timely information on the USEPA's long-awaited new local limits guidance manual. The conference is also jam-packed with top-notch technical sessions. Highlights of the sessions include information on running a top-notch pretreatment program; updates on the latest stormwater regulations and how to comply with them; enforcement from start to finish; the latest in pollution prevention; and talks on pollutants of concern such as mercury; emerging pollutants; and fats, oils, and grease.

There will be plenty of training for everyone, from new pretreatment personnel needing initial training to experienced personnel wanting to learn about the latest regulatory changes and innovative solutions to them. We are offering an all-day Environmental Compliance Inspector Training, good for both beginners and seasoned inspectors. The EPA will be presenting its Basic Pretreatment Training Course, which is essential for all pretreatment personnel. We are also offering two full days of stormwater training, featuring a half-day EPA training and a half-day training on the California Stormwater Quality Association's Best Management Practices. There will also be a one-day concurrent training workshop in English and in Spanish for Industrial Wastewater Treatment Plant Operators.

And if that wasn't enough, on Monday, conference attendees can enjoy an Equipment and Services Exhibition with a hosted reception in the evening. On Tuesday, they will be treated to a behind-the-scenes tour of Universal Studios, including transportation to and from the Studios. Family is welcome on this fun tour for a nominal additional fee.

Please join us at the beautiful Hilton Burbank Airport and Convention Center for this outstanding training opportunity.

See you there!

Conference Chair

# Conference Highlights

## **OPENING GENERAL SESSION**

This year's special opening session brings together top wastewater and stormwater regulators at the local, state, and national level. The Chair of the State Water Resources Control Board, the Executive Officer of the Los Angeles Regional Water Quality Control Board, and the Municipal Wastewater Division Director at US EPA Headquarters will discuss the latest regulatory updates that affect you and give you status reports on current hot topics. Rounding out the program will be the Executive Director of Heal the Bay to update us on the Environmentalists' priorities, as well as Jeff Smith of US EPA headquarters talking about a new local limits guidance manual that EPA will be unveiling in late 2003. You will not want to miss this session.

## **TECHNICAL SESSIONS**

Concurrent technical sessions will cover:

- Pretreatment issues
- Fats, oils, and greases
- Enforcement
- Mercury
- Emerging pollutants
- Stormwater issues & regulations
- Going beyond pollution prevention

## **SPECIAL LUNCHEON ACTIVITIES**

Monday's luncheon will feature presentation of the awards to California industries who have demonstrated outstanding and innovative solutions in multimedia waste management. Back by popular demand, Captain Gordon Graham, a CHP officer who is also a consultant and an attorney, will deliver the keynote address on Tuesday. The entertaining and practical Captain Graham will speak on "Customer Service – Achieving WOW Results", an increasingly critical issue. Wednesday's luncheon will feature an update from Alexis Strauss, the Director of the Water Division at EPA's Pacific Southwest Regional Offices in San Francisco.

## **EQUIPMENT AND SERVICES EXHIBITION**

The conference will include an "Equipment and Services Exhibition" which will feature a selection of products and services of interest to wastewater and stormwater professionals.

Manufacturers' representatives will be on hand until Monday at 7 pm to explain their services and to answer your questions. There will be a hosted reception at the end of the day in the exhibition area.

## **UNIVERSAL STUDIOS BEHIND-THE-SCENES TOUR**

Tuesday evening, conference attendees will enjoy a private, behind-the-scenes tour of Universal Studios Hollywood, the world's largest movie studio and theme park. The tour begins at 5 pm and includes transportation. After the tour, you can explore Universal's famous CityWalk. The tour is included with conference registration and spouses or guests are also welcome for a \$20 fee.

## **EPA & CASQA STORMWATER TRAINING**

There are two full days of stormwater training at this year's conference. Starting on Tuesday, there will be a full day of talks on Stormwater Program Issues featuring speakers from two RWQCBs, Southern California Coastal Research Project and talks on implementing BMPs, training requirements, implementing training requirements, database management, and developing a stormwater utility fund within public agencies. The final presentation will be on identifying regional BMPs based on recent work done by the County of Orange.

For the first time in Southern California, US EPA and the California Stormwater Quality Association (CASQA) will be holding an all-day stormwater training. The training will occur in two half-day sessions on Wednesday. The morning session will consist of EPA training, with overviews of stormwater regulations and California's stormwater program, discussion of stormwater implementation/compliance issues, and a panel discussion with federal, state, and local stormwater officials. The afternoon session will consist of CASQA training covering the CASQA Handbook, preparing a SWPPP, selection of BMPs, and the municipal experience. The CASQA "Industrial and Commercial Handbook" will be provided to all participants that attend the afternoon training session. This timely and informative training will be presented in an interactive training format appropriate for both field staff and stormwater program managers.

## **EPA BASIC PRETREATMENT TRAINING**

The US EPA will be providing an opportunity to attend its Basic Pretreatment Training Course on Wednesday. The objective of this course is to provide the basic regulatory framework and technical considerations for developing and implementing local pretreatment programs under the Clean Water Act. The course is designed and recommended for environmental professions responsible for implementing local pretreatment programs, industrial dischargers, and consultants. Attendees can expect to complete the class with a good understanding of what a local pretreatment program should be accomplishing, and how to make their own pretreatment program successful.

## **ENVIRONMENTAL COMPLIANCE INSPECTOR TRAINING**

This one-day training on Tuesday is geared toward both new and seasoned inspectors. Topics covered will include an overview of regulatory agencies and pretreatment programs, conducting compliance inspections, GIS as a tool for inspectors, environmental crimes investigation, criminal environmental enforcement, privatization, and flow measurement.

## **INDUSTRIAL WASTE TREATMENT PLANT OPERATOR TRAINING WORKSHOP**

On Monday an all-day workshop will be offered to provide technical information to understand and operate industrial wastewater pretreatment systems. The primary audience is expected to be the metal finishing industry. The class is offered in English with a head-phone translation available in Spanish. A Certificate of Participation will be provided to each participant.

## **CONTINUING EDUCATION POINTS**

This year continuing education credit will be provided for attendees on an hour for hour basis. **For details, contact Jeff Carter at (818) 972-1115.**
